

# Customize Holograms

Counterfeiting is one of the fastest growing crimes in the world. Companies and countries lose millions and consumers suffer from illness and even death because of counterfeit products. Holograms are diffractive optical devices made with laser technology which cannot be copied, or electronically scanned or duplicated by any known printing method. Over the years they have proven to be the best defense against counterfeiting that is why over 90 countries use holograms on their currencies.

We at Hira Holovision would like to introduce our self as an enterprise involved in the commerce of holograms and Holographic products. We are a renowned manufacturer and exporters of Holographic Seals, Security Hologram Labels, Holographic Adhesive Tapes, Holographic paper labels.

It started with a vision to deliver solutions for clients to secure their losses due to duplicity and to protect their brands. These holographic products provide ideal solution for brand authentication and counterfeiters prevention. They are developed as per the international quality and standards.

We have got full membership of HoMAI for maintaining consistent quality throughout our business processes. With our customer centric attitude and in- depth knowledge of holographic market, we have been able to establish ourselves as a reliable entity in the international market. Owing to our market expertise, we have also attracted a large number of satisfied clients in both corporate as well as government sectors. Consequently, we are reckoned as one of the credible Hologram Manufacturers and Exporters in India

Hira Holovision offers hologram stickers and labels for a variety of security applications to protect your products, documents, event tickets, ID badges, etc. We provide superior quality security hologram to companies/industries that provide highest level of security to products, product packages or documents.
