We offer you all common roll, spool and many label sizes, so that the application of our products for theft prevention can be easily implemented in any dispatch or packaging department.
Security labels and tapes: more transparency in the supply chain.

Security seals are mechanisms used to seal containers in a way that provides <u>tamper evidence</u> and some level of <u>security</u>. Such seals can help to detect <u>theft</u> or contamination, either accidental or deliberate. Security seals are commonly used to secure vehicles, chemical drums, warranty products, computer products, electronic products and utility meters. Typically they are considered an inexpensive way of providing tamper evidence of intrusion into sensitive spaces.
