

We are one of the leading manufacturers and suppliers of Holograms - Labels & Stickers, which are fabricated from supreme quality material. These are developed in accordance with the industry standards and so, we ensure their long working life. Our highly efficient range has high demand in the market for their unmatched quality. We offer wide variety of Holograms - Labels & Stickers to our valuable clients. Made with the use of latest technology, our holograms are easy to apply and self-adhesive. These are used on varied substrates to secure and protect different items. Used in diverse industries for security, branding purposes, brand authentication and promotion, these holograms can be customized in varied sizes with company logo.

We specialize in fabricating Holographic Labels which provide both aesthetic looks and security. Our Holographic Labels come in handy if you want to notify any information with the help of a Hologram. We allow users to incorporate a variety of information and security features like tamper evident, laser numbering, inkjet numbering, hidden codes etc., in the Holographic Label. Our holographic labels are best solution to protect your company from any type of forgery as they cannot be copied. Holograms are used extensively for the protection of the products authenticity and brand image. Besides, holograms are also used to protect originals of important, sensitive and valuable documents against forgery. As holograms can't be reproduced, they can be used to prevent duplicity of the products.

We offer our clients a customized range of high quality Holographic Security Stickers which are used in diverse industries for security and branding applications. Easy to apply, these hologram stickers are self-adhesive and tamper proof. They can be used on various substrates to help protect, secure and authenticate a spectrum of items. Any tampering attempt can be identified easily as the stickers cannot be removed without destroying them. Our hologram stickers are virtually impossible to duplicate or replicate. We also custom design these hologram stickers in different sizes with company's names and logos, based on customer specifications.

**Hologram Labels:** One of the most effective methodologies for product and brand authentication and promotion, since this holographic technology is in label form it can be used on any product or commodity. These hologram labels are easy to apply and use - just remove and paste, no rocket science to its application.

We offer tamper-evident hologram labels for various products at very competitive prices. Tamper-evident/non-tamper-evident hologram labels are the most widely used holograms that are supplied as pressure sensitive stickers in sheet form for manual application and roll form for machine application. Tamper evident holograms are impossible to be removed undamaged.

The Hologram / Hologram Labels we offer to our clients enhance the packaging design of the product. Whereas, the main usage of these labels is forgery protection as they are hard to be copied. We can make the logo of the company or any other desired shape mentioned by the client in our product range.

We manufacture reliable and tamper evident holograms in both sheet and spool forms.

#### **Sheet Form:**

In the sheet form, Holograms are supplied on a sheet from where they can be detached and further used even with human hands. Since the main purpose of Holograms is to provide security, the sheets that we supply can be serially numbered for accountability of the Holograms. We ensure maximum value for money from our customers with no gap between two hologram for square hologram with sharp edge corners. But due to design necessities, a gap of 3 mm is required for circular and rounded-corner holograms.

#### **Spool Form:**

In the spool form, Holograms are supplied in spool form with a gap of minimum 2.5-3 mm between two holograms. These holograms can be applied both manually and automatically using automatic dispensing machines.

#### **Recommended for:**

Brand Protection, Document Protection, Brand Promotion, Aesthetic look, etc.
