

Tamper Evident Tapes

Sometimes we work so hard to develop our product, our brand. After all the hard work the one thing we forget to do is to secure our product. We have a solution for you, security tapes. You can relax while our tapes secure your products. Security tapes provide an anti-tamper seal for shipping cartons, pallets, letters, bags and many other containers. All of our security tapes have pressure-sensitive adhesive — just peel and stick. After applying the security tape, removal will cause the tape to self-destruct, leaving words or symbols (Void, Beehive, Checkbox-as in picture) on both the affixed surface and in the security tape. The tamper evident feature varies for each product. Most of the tapes are offered in both stock and customized versions. Secure and protect your packages from transportation theft or alteration. It offers 100% authenticity and anti-counterfeiting.

After application, when removed the security tape will show tamper evidence by self-destructing – leaving words or symbols on the package and in the security tape itself.

These tapes perform well with the most common surfaces.

Advantages of Tamper Evident Tapes :-

A key element of our technology is the wide range of tamper evident products we offer. Our R & D team has made significant efforts to bring to you diverse options such as full release tamper / VOID – pattern – customized tamper / selective tamper .Such a wide variety helps our customers in choosing the right product for their needs. They offer a high level of security against tampering and removal.

We provide security tapes for the highest security applications in government agencies and Multinational corporations around the world. Some of the advantages of security tapes are -
